

Share Your Parish Story

As you prepare to welcome your new pastor, now is a great time to tell the story of your community and what makes your parish unique. Please use the prompts below. Pastors and parochial vicars will receive the "stories" for each community in their parish family at a retreat in April, so make sure you provide everything you would like them to know! To make sure we have enough time to collect everything for our priests, please **submit this form to partnersubmissions@seattlearch.org** by March 22, 2024.

What would you want your new priest leaders to know about your community? Tell them here! (Please focus on the current parish community instead of the history.)

What are your community's charisms and gifts?
