MAXIMIZE YOUR STRATEGY

CONSIDER YOUR OPTIONS

If you have money in a former employer's retirement plan, there are several options available that may simplify your financial life. These include cashing out, keeping the money where it is, or rolling the funds into an IRA or your employer plan with Transamerica. For more information about your options, call **800-275-8714** or email **consolidate@transamerica.com**.

When considering your options, be sure to review the fees and expenses associated with each option. Also, be sure to consider whether there are certain services, features, or benefits available through certain accounts that may be important to you.

Employer-sponsored retirement plans may have features that you may find beneficial such as access to institutional funds, fiduciary selected investments, and other ERISA protections not by afforded other investors. In deciding whether to do a rollover from a retirement plan, be sure to consider whether the asset transfer changes any features or benefits that may be important to you. Review the fees and expenses you pay, including any charges associated with transferring your account, to see if rolling over into an IRA or consolidating your accounts could help reduce your costs.

IT'S TIME TO CREATE YOUR INVESTMENT STRATEGY

Your retirement plan is one of the most effective ways to prepare for the future you deserve.

The way contributions are invested in your account is referred to as your "investment allocation." You may change your allocation at any time.

For detailed, up-to-date information on the investment options in your plan, including possible trading restrictions, please visit transamerica.com/portal.

If you fail to make an investment election, or your elections do not equal 100%, your contribution will be invested in a default investment option for all contributions.

Unless you choose otherwise, your account will be invested in, T. Rowe Price Retirement Trust F series, which is a group of single target date funds; based on your assumed retirement age of 65.

Here are some helpful concepts to consider as you examine your investment strategy; Asset allocation, diversification, time horizon and risk tolerance. For further details, please visit Transamerica.com/financial-glossary.

HELP ME DO IT

ONE-STEP DIVERSIFICATION WITH *PORTFOLIOXPRESS*[®]

PortfolioXpress is Transamerica's asset allocation and rebalancing service. It uses the "core" funds in your plan and the retirement year you choose to provide you with a diversified investment mix. The service automatically:

- Allocates contributions to reflect your investment mix, based on a selected retirement year.
- Regularly rebalances your portfolio to maintain your mix.
- Adjusts your mix to become more conservative over time.

To sign up, simply log into your account on your plan website, find *PortfolioXpress*[®] and follow the directions to turn it on. You can turn off the service at any time.

PortfolioXpress® is a registered service mark of Transamerica. *PortfolioXpress*® presents a series of asset allocation models based on a designated retirement year. You are solely responsible for selecting the retirement year and risk preference, if applicable. In implementing the service, you agree to each of the asset allocation mixes and automated rebalancing transactions that will take place over time within your account as you approach the selected retirement year. If you do not designate a retirement year, the plan will set your target retirement year as the year in which you attain age 65. You can change your target retirement year, or turn *PortfolioXpress*® off, at any time. *PortfolioXpress*® is designed as investment education. Transamerica or its affiliates do not provide investment advice to *PortfolioXpress*® nor does Transamerica act as a plan fiduciary. Retirement date portfolios are subject to the same risks as the underlying asset classes in which they invest. The higher the portfolio's allocation to stocks, the greater the risk. The principal value of the portfolio is not guaranteed at any time, including at and after the target date. Diversification does not guarantee against loss in a falling market.

TARGET DATE FUNDS

Investing in a target date fund (TDF) can be a good option if you're seeking an easy way to diversify your retirement account. By making a single decision, a TDF allows you to enjoy asset diversification and allocation based on a target retirement year. The underlying investments in your chosen TDF become more conservative as you get closer to retirement.

Target Date Funds: These options generally invest in a mix of stocks, bonds, cash equivalents, and potentially other asset classes, either directly or via underlying investments, and may be subject to all of the risks of these asset classes. The allocations become more conservative over time: the percentage of assets allocated to stocks will decrease while the percentage allocated to bonds will increase as the target date approaches. The higher the allocation is to stocks, the greater the risk. The principal value of the investment option is never guaranteed, including at and after the target date.

DO IT YOURSELF

BUILD YOUR OWN INVESTMENT MIX

Build your own investment mix by choosing from the "core" funds in your plan. Your plan offers a range of choices that enable you to diversify among various asset classes and investment styles. Prospectuses and fund information are available on your plan website.

Once you determine the investment mix that is right for you, your plan's auto-rebalance service can help you maintain your mix automatically. To configure your investment mix log in to **transamerica.com/portal**, access the *Future Allocations* under *Investments* in the Menu.

Fund prospectuses and other information can also be accessed from *Investments* in the Menu.

This document is required to be sent to you to help you understand your retirement plan and will be updated annually and when certain types of changes are made. Although you should review this important information, no action is required on your part.

How to Direct Your Investments	You decide how your account will be invested among the available investment options by calling 800-755-5801 or going to transamerica.com/portal .
Transfer and/or Investment Allocation Restrictions	There are no transfer restrictions imposed by the Plan. Please see Table 1 for transfer restrictions that may be imposed by the investment options. You may change your investment allocation at any time. No plan level allocation restrictions apply.
List of Investment Alternatives	For the listing of the Plan's investment alternatives, please see the attached Comparative Investment Chart. Your plan also offers PortfolioXpress. PortfolioXpress is a service that provides an investment mix of the designated investment alternatives offered under your plan based on the target retirement year you select. Potential General Administrative Fees and Expenses

Administrative Fee — Per Account	<p>When applicable, other general administrative fees for plan services (e.g., legal, accounting, auditing, recordkeeping) may from time to time be deducted as a fixed dollar amount from your account.</p> <p>The actual amount deducted from your account, as well as a description of the services to which the fees relate will be reported on your quarterly benefit statements.</p>
Administrative Fee — Pro Rata	<p>The plan incurs general administrative fees for ongoing plan administrative services (e.g., recordkeeping) of up to 0.09% annually of assets held in the plan investment options. These fees are applied pro rata across some or all investment options held in your account. However, the administrative fees allocable to an investment option may be paid, in whole or in part, from revenue (e.g., 12b-1 fees, administrative fees) that Transamerica Retirement Solutions or its affiliates receive based upon the plan's investment options. Consequently, if revenue is received related to an investment option, you will pay less than 0.09% as administrative fees on your assets held in that investment option depending upon the amount of revenue received. (It is not possible to accurately determine in advance the amount of revenue that an investment option will generate or when it will change.) If the revenue from an investment option is not adequate to cover the administrative fees allocable to that investment option, the shortfall will be deducted from your account based on your assets held in that investment option. If the revenue from an investment option exceeds the administrative fees allocable to that investment option, the excess will be applied as a Plan Service Credit (see Plan Service Credit below) to your account. Please log into your account on-line to view the most current version of the fund and fee information chart.</p> <p>When applicable, general administrative fees other than the charge above (e.g., legal, accounting and auditing), for administrative services, may from time to time be deducted on a pro rata basis across some or all investment options held in your account. A general administrative fee of 0.11% will be deducted as a percentage of assets from some or all investment options held in your account.</p> <p>The actual amounts deducted from your account, as well as a description of the services to which the fees relate will be reported on your quarterly benefit statements.</p>
Plan Service Credit	<p>The plan service credit represents an expense refund for one or more of the investment funds offered by your plan. When applicable, a plan service credit is added to your account and lowers the effective annual expense ratios of the investment fund(s) for which a plan service credit applies. Any plan service credit will be reported on your quarterly benefit statements.</p>

Potential Individual Fees and Expenses — applicable only to those using specific features or services

Full Distribution Fee	<p>A fee of \$25.00 that is deducted from your account when you take a full distribution from your account when you terminate employment or retire. The fee is also applicable to the final distribution from a former participant's account who has taken unscheduled systematic withdrawals and for contract exchanges to another service provider. The fee is waived if the distribution is made due to death, disability, the purchase of an annuity through Transamerica, a direct rollover to a Transamerica IRA and any distribution from a beneficiary's account. The amount deducted from your account will be reported on your quarterly benefit statement. The fee and the related service will be identified as a Distribution Processing Fee.</p>
In-service Distribution Fee	<p>A fee of \$25.00 that is deducted from your account when you take an in-service distribution from your account and for a contract exchange to another service provider. The fee is waived for direct rollovers to a Transamerica IRA, Required Minimum Distributions and distributions made from a beneficiary's account. The amount deducted from your account will be reported on your quarterly benefit statement. The fee and the related service will be identified as a Distribution Processing Fee.</p>
Overnight Check Fee	<p>A fee of up to \$50.00 will be deducted from your account in the event you request a check be sent overnight to you. The amount deducted from your account, as well as a description of the services to which the fee relates, will be reported on your quarterly benefit statement. The fee and the related service will be identified as a Overnight Check Fee.</p>
QDRO Fee	<p>A fee of up to \$600.00 will be deducted from your account when your account is divided as a result of a Qualified Domestic Relations Order ("QDRO"). The amount deducted from your account will be reported on your quarterly benefit statement as a QDRO Fee.</p>

Potential Individual Fees and Expenses — applicable only to those using specific features or services (continued)

Returned Check — Insufficient Funds	A fee of up to \$50.00 will be deducted from your account in the event a check is returned for insufficient funds. The amount deducted from your account, as well as a description of the services to which the fee relates, will be reported on your quarterly benefit statement. The fee and the related service will be identified as a Returned Check - Insufficient Funds Fee.
Shareholder Type Fees	For applicable redemption fees, please see the Investment Information section. Changes in these fees are announced separately. The amount deducted from your account, as well as a description of the services to which the fee relates, will be reported on your quarterly benefit statement.

Investment Information

This information is provided to help you compare the investment options under your plan. You may obtain, free of charge, a paper copy of your fee disclosure notice and other investment information posted at transamerica.com/portal, by contacting Transamerica at 800-755-5801 or by writing to Transamerica Retirement Solutions, 6400 C Street SW, Mail Drop 0001, Cedar Rapids, IA 52499, Attention: Fee Disclosure. The information available includes each investment option's issuer, objectives, goals, principal strategies, principal risks, holdings, turnover rate, value and updated performance and expense information; as well as a glossary of terms, information about calculating benefits, available distribution options and (where appropriate) prospectuses and annual reports.

The following table focuses on investment options that have variable rates of return, and shows fee and expense information, as well as investment performance for each investment option and that of the appropriate benchmark, or index. If your plan offers balanced, asset allocation or target retirement funds, which are comprised of a mix of stock and bond investments, you will see two broad-based benchmarks, a stock index and a bond index. Because they are made through a retirement plan, your investments in these funds are not subject to front-end or back-end loads, which are a form of sales commission charged at the time of purchase or sale. Please note the following:

- The investment performance of each investment option is shown net of (or after) fees, while the benchmark or index investment performance is reported on a gross (before fees) basis. If the option has less than a ten year history, the investment performance of both the investment option and the index are shown since inception, with the inception date shown after the investment option name. Returns of less than one year are not annualized. Performance prior to the inception date of the share class (if any) is based on returns of an older share class, which have been adjusted for expenses.
- Total Annual Operating Expenses of an investment option are the expenses you pay each year, which reduce the rate of return you earn. In some cases, a fund may waive or reimburse certain expenses. If a fund has waived expenses in the past year, you will see a different gross (G) (before waivers) and net (N) (after waivers) expense ratio. So while an investor could have been charged as much as the gross expense rate in the past year, they will only have paid the net expense rate because of the waivers. Fund specific operating expense details are available at transamerica.com/portal.
- Shareholder-type fees, if any, are in addition to Total Annual Operating Expenses. Fees and expenses are only one of many factors to consider when you decide to invest in an investment option.
- You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals.
- The performance data quoted represents past performance. Past performance does not guarantee how the investment option will perform in the future. Your investment in these options will fluctuate and you could lose money. Current performance may be lower or higher than the performance data quoted.
- The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for information on understanding your retirement plan fees at <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/resource-center/publications/understanding-your-retirement-plan-fees>.
